ABOUT THE STATE. All Three Had Grippe.

Framingham, Mas-The Anti-Itis Co.. Danvers, Mass.

Gentlemen:

I wish to inform you in regard to what Anti-Itis has done for me. My children were all (three) down with the Grippe in very bad condition, and we covered their throat and chests well with Anti-Itis, following directions, and we found that in less than two hours that there was a change for the better, and we have used it for croup with the same results. No family with children ought to be without Anti-Itis in the house at all times, as it saves time, labor and money.

It is the best Anti-inflammation remedy we will begin his pastorate as soon as he have ever used. Easy to put on, easy to take completes his theological studies in off. Does its work quickly.

Very truly yours,

CABOT.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes," Now "Herpes" is the family name of a disease caused by various vegetable par-asites. A similar microbe causes dandruff, itching scalp, and falling hair; this the microbe that NEWBRO'S HERPI-CIDE promptly destroys; after which the hair grows.
